

The Brighton Experience

Have you ever had the chance to spend a language week abroad?

4AHW and 4FHW had the opportunity and went to the English town of Brighton to improve their language skills, become aware of intercultural differences, make new acquaintances and have a lot of fun.

Situated by the sea and known for its non-judgmental inhabitants the town is a place where students from all over the world like to study and improve their English.

The classes 4A and 4F spent one week at this seaside resort and attended a language course at "EC Brighton English Language School".

The adventure started at Innsbruck airport, from where we went by plane to London Gatwick and by coach to Brighton. We stayed with host families, with whom most of us got on very well.

Besides guided tours through the city, to the Sealife Centre, the world's oldest operating aquarium, which was opened in 1872, Kew Gardens and the Seven Sisters we

also had the

possibility to visit London for one day. Museums, shopping and the attempt to stay out of rain and snow were on our agenda.

Back in Innsbruck via London Heathrow we were met by our friends and families and though happy to be

back home, the "Brighton Experience" is something we would not like to miss.

Not only did we learn a lot of English, but we also explored the many little cafés, restaurants and shops in Brighton and London, sampled English food and also Italian dishes at Jamie's Italian and grew closer as a class. The experience has made us a closely knit community and despite of the weather we enjoyed the week very much.

Special thanks to JUFF for the financial support.

4AHW and 4FHW
