Skybib #BUCH DES MONATS

Herbert Frank, *Dune*

Aus bekannten Gründen waren Kinobesuche lange nicht möglich. Dieser Kino-Herbst ist anders, denn er startet mit einer monumentalen Neuverfilmung der Dune-Saga. Dieses 3-teilige Science-Fiction-Epos wurde bereits 1965 veröffentlicht, hat aber an Aktualität absolut nichts eingebüßt. Passend zu dem aktuellen bildgewaltigen Kinofilm, bietet euch eure *Skybib* die Buchfassungen im englischen Original als auch in der deutschen Übersetzung: *Come in and dig deeper!*

Melange, or “spice”, is the most valuable – and rarest – element in the universe. And it can only be found on a single planet: the inhospitable desert world Arrakis. Whoever controls Arrakis controls the spice. And whoever controls the spice controls the universe. When the stewardship of Arrakis is transferred to his House, Paul Atreides must travel to the planet’s dangerous surface to ensure the future of his family and his people. But has malevolent forces explode into conflict around him, Paul is thrust into a great destiny beyond his understanding.¹

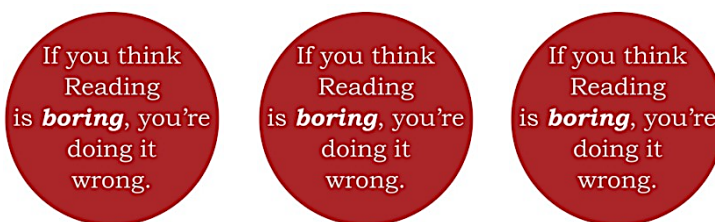

Skybib #SERIENTIPP

Chilling Adventures of Sabrina, Drama, Netflix

Beware, THIS series is dark and not recommendable for the lighthearted viewers among you. It includes topics that can frequently be encountered during Halloween season: fear and witchcraft. On top of that, *The Chilling Adventures of Sabrina* features numerous references to other infamous horror movies and atrocious historic events (e.g. Salem Witch Trials). Still, as *The Guardian* puts it, this coming-of-age series is “spirited, supernatural fun, but with a menacing terror that echoes the last months in the real world” (Nicholson).
